## Bakel's Serum One (Antioxidant Formula)

By Makeup Addict November 16, 2009 0 Comments 877 Views

Bakel's Serum One (Antioxidant Formula) \$140.00 Available @ Space NK

An innovative serum exclusively containing 3 active agents of proven effects:

- Lactobionic acid, a highly effective substance able to improve facial contour thanks to its powerful antioxidant action;
- Glucolactone, which protects the skin epidermis against imperfections due to sun exposure, and improves skin tonicity;
- Vegetable glycerine adding a moisturising action.

*Makeup Addict is amazed by **Bakel's Serum One (Antioxidant Formula)** results. I have been using this serum for several weeks and it took a little while to really see the differences. However, I am happy to say the contour of my jawline is definitely improved. The jowl area is much less noticeable and that is a wonderful improvement. Very few products have been able to transform that particular area and **Bakel's Serum One (Antioxidant Formula)** is one of them. A lot of products claim to improve the contour of your face - but do not. So this is a major accomplishment!!! It feels great on and once you apply it and it is absorbed immediately -- you would have no idea that it is there. One hint is the improved moisture right away. Another improvement which took a bit of time was the tone of the skin -- it is definitely more even. Don't give up when you do not see these changes immediately. All good things take some time. The changes take time and are gradual. I did not wake up to find dramatic changes. They were gradual and added up to very noticeable - with time. Have patience and you will be rewarded. Perhaps I should mention another important factor -- I have been using in conjunction with their **Serum Two**. Let me tell you that you only need a few drops of this **Serum One** morning and evening to do the job so you will have the **Serum One** for some time and get your money's worth. When you see the improvements to your face and neck and even your décolleté areas - you will definitely realize the worth of this **Serum One**.*

*METSV says: I have to agree with Ellen above on her review. This wonderful antioxidant formula from Bakel is really quite awesome. With minimal, but effective ingredients this serum goes to town to help firm and tone my skin. I have used it every day for the past few weeks and have been liking it more and more. It seems to help my moisturizer absorb better and helps lock in the hydration while protecting my skin. It instantly absorbs and gives my skin a soft healthy glow. There are several Bakel's Serums to choose from depending upon your skin's needs, and I have been using this serum during the day and the firming serum at night so maybe the reason why I am so happy with the results is because I'm getting a double-whammy of skingredients. It's not overnight. Nothing is - for me, I really started to notice a positive difference in the third week of consistent use. Both serums address the issues of where my skin is at these days. With the change of the weather my skin can rebel in the worst way, but the serum seems to be keeping things under control, allowing me to have more good skin days than bad.*
