

Bakel Malic Lightening Solution

preservatives, colouring agents, perfumes, oil-derivatives, silicones, alcohol, PEG and PPG.

Bakel's Malic Lightening Solution is one of six new anti-aging skincare products launching at **Harvey Nichols**.

This innovative product contains **100% active ingredients** to promote a brighter complexion.

The **key ingredients** include malic acid, mandelic acid, tartaric acid and kojic acid to help remove dead skin cells, prevent skin spots and improve skin tone; glycerine and pentylene glycol to provide moisturising benefits; and vegetable hydrocellulose to protect the skin.

All Bakel products are **formulated without**

Lumecin Overnight Brightening Gluco-Protein Treatment

Bakel Malic Lightening Solution is available from Harvey Nichols and www.bakel.it.
